## Professional Summary

---

Bilingual web developer with advanced English (C1) and over 2 years of experience as a freelancer, building applications using frontend frameworks such as **React.js** and **Vue.js**, and programming languages including **PHP**, **JavaScript**, **TypeScript**, and **Golang**. I have planned, developed, and maintained more than 10 projects for small businesses and entrepreneurs, and have worked with Cloud Computing platforms such as **DigitalOcean** and **AWS** both professionally and for personal projects.

## Education

---

U.P.T.P “Luis Mariano Rivera”  
Associate's Degree in Computer Science

Sept, 2019 - June, 2022  
*Caripano, VE*

## Work Experience

---

### Fullstack Freelance Developer

May, 2023 - Presente  
*Remote*

- Developed and deployed more than **10 websites and web applications** for small businesses and entrepreneurs, achieving optimized loading times, responsive designs, and solid SEO performance.
- Created a **custom WordPress plugin** with Elementor widgets built from scratch, achieving an **85% reduction in rendering time** and organizing over **100 pages** under a custom taxonomy.
- Provided continuous maintenance, bug fixing, and **performance and security optimization** for client websites hosted on cloud platforms (IONOS, Hostinger, among others).
- Planned and managed more than **5 full web development projects**, defining development milestones and tracking progress to ensure timely delivery.
- Developed and deployed a **Single Page Application (SPA)** using Vue.js, TailwindCSS, and TypeScript, along with a **PocketBase backend**, for a university system managing teacher schedules.
- Built an image gallery system with **Laravel and React.js**, supporting multi-file uploads and authentication, enabling the client to **save \$180 per year** by eliminating third-party services.
- Developed a corporate website integrating **Laravel** for view rendering and **WordPress** as a CMS, improving front-end flexibility and content management.

## Projects

---

### Bachacode Developers | Development & Deployment

NextJS | TailwindCSS | NodeJS

- Developed and deployed a multilingual landing page (English and Spanish) with server-side rendering, **Cloudflare Turnstile** integration, **SMTP**-based contact form, and **analytics** powered by Vercel.
